

INFOCEUTICALS

BIOENERGETIC MINERAL DROPS

Your body doesn't
just need nutrients.
It needs better information.

Mineral-based drops imprinted with proprietary signaling patterns. Grounded in physics, and designed to help the body produce energy more efficiently and restore cellular communication.

THE PROBLEM

Fatigue, poor sleep and stress rarely trace back to one deficiency. Supplements add raw material — not the signaling that tells the body how to use it.

THE SOLUTION

Infoceuticals work one level upstream, at the body's energetic foundation. Non-toxic, non-invasive — 15 drops in a glass of water, in seconds a day.

BENEFITS

- **More energy** — feeling less drained, with greater vitality throughout the day.
- **Better sleep** — falling asleep more easily, sleeping more deeply, waking more refreshed.
- **Enhanced emotional balance** — feeling more resilient and better able to cope with everyday stress.
- **Greater calm and relaxation** — feeling more settled, with a greater sense of ease and wellbeing.
- **Improved mental clarity and focus** — feeling more alert, clear-headed, and able to concentrate.
- **A stronger sense of wellness** — feeling the body functioning more smoothly, in better balance.

HOW THEY WORK

1 Encoded energy signals

Structured water imprinted with frequency patterns that interact with the body's energy control system.

2 Body-field correction

Those patterns resolve disruptions so energy and information flow efficiently again.

3 Cellular communication

Better coherence re-establishes natural signaling between cells.

THE EVIDENCE

UCSD university
study, 2022

A university research team studied the effects of Infoceuticals in live tissue — including direct imprinting of the information into cells.

Results included increased mitochondrial protection, reduced cellular stress, changes to the cellular membrane, and viral protection.
